

Respect Your Neighbors. **Keep High Knob Clean.**

Litter is a growing problem in the High Knob Region, both at recreation areas and in the region's many communities. Beyond being unsightly for residents and visitors, litter contaminates the mountain's waterways and harms wildlife. A few simple steps can help you limit your impact on and around High Knob.

- Pack out what you pack in: dispose of litter only in designated trash containers and not on the trail
- Throw food and drink containers away at home instead of tossing them out at parking lots or along roadways
- Dump sites are illegal. Dispose of large items at county convenience centers
- Contact your local government office to learn about volunteer cleanup events
